Texture Pro

Texture Pro software gives R&D professionals more control over test execution, by providing an intuitive way to set up tests, using a step-like structure.

Texture Pro software gives R&D professionals more control over test execution, by providing an intuitive way to set up tests, using a step-like structure. The "Favorites" feature provides an easy way for performing the QC tests and quickly analyze results with pre-defined templates.

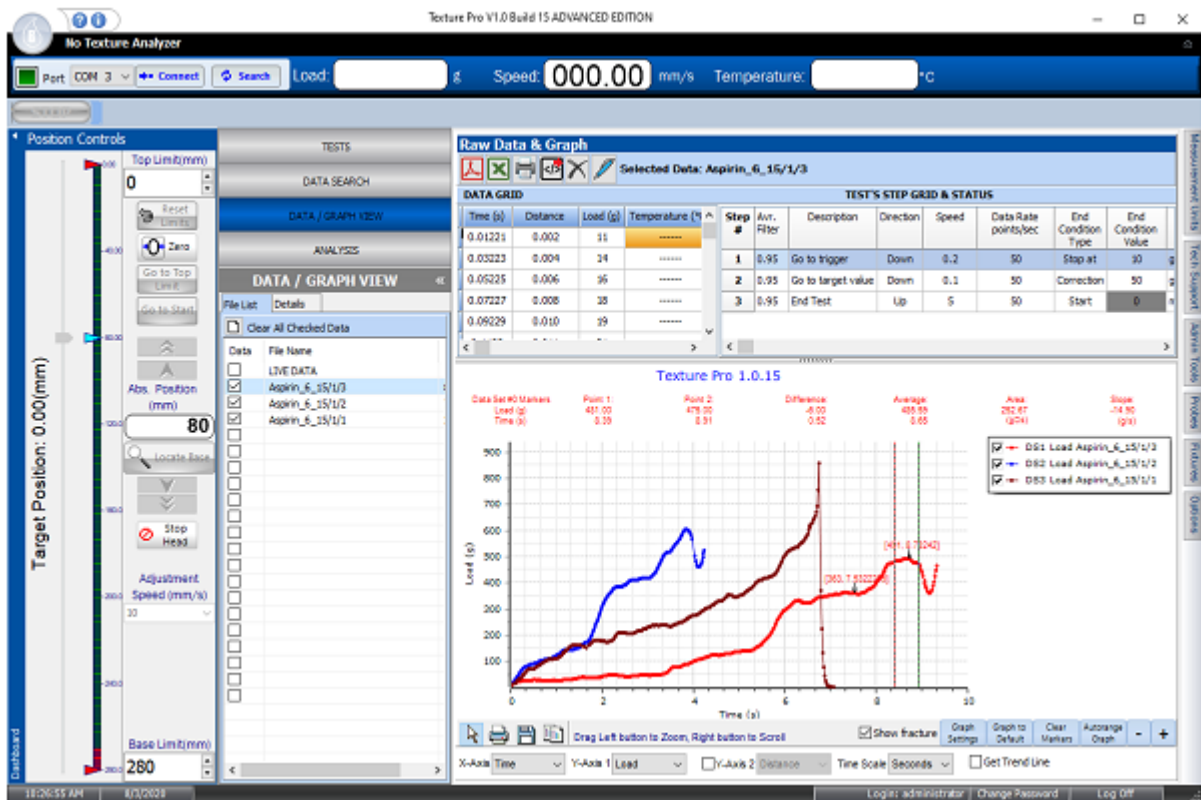

Figure I

Texture Pro is designed for use with the **CTX™ Texture Analyzer** (https://www.brookfieldengineering.uk/products/texture-analyzers/ctx-texture-analyzer) and Windows 8 or above Operating System. It collects data from the Texture Analyzer and allows save, view, print, plot, and analyze options.

FEATURES & BENEFITS

- Wizard utilities to guide a user through the creation of the common, custom, and multi-cycle test templates
- The step-like structure of the test templates makes them more comprehensive and easier to use
- New software user interface (UI) makes it easy to prepare and set up a test run. It allows controls like:

    1. Position a probe remotely with the click of a button using the positioning slider control panel.
    2. Set the upper and lower limits using the positioning slider control panel.
    3. Reset instrument controls.Base location controls.
    4. Easy test template search capabilities and favorite test templates panel.

- Export/Import data and test templates to Excel or read-only PDF formats
- Use filters to search and manage existing data. Easy export, import, and delete a load of the data
- Compare existing data by loading up to 20 distinct data sets within the graph
- Calculation Preview enables a user to view and edit available calculation by simply selecting already loaded data sets

The advanced edition also includes Secure 21 CFR features, like:
- Multiple logins
- Access levels
- Digital signatures
- Data storage in a password-protected database

MINIMUM SYSTEM REQUIREMENTS:

Operating System:	Windows 8 64-bit, Windows 10 64-bit
Processor Speed:	3 GHz
Memory (RAM):	8 GB
Screen Resolution:	1280 x 800
Communications:	USB port
